*Tradition*

Belgium is world-renowned for its chocolate and competition among Belgian chocolate makes is fierce. However, Galler stands as one of the most innovative and gourmet chocolate factories and family businesses in the world of chocolate.

It is an emblematic brand that can be found in more than 3,000 points of sale in the world. The dynamics and the love of perfection enabled the brand to be the official supplier of chocolate to the Royal Court of Belgium since 1994 and without interruption.

Far from industrial products, Galler chocolates show typical Belgian knowledge and a long tradition of craftsmanship. Always one step ahead, as much regarding the recipes as with the new packaging, Galler has always been innovative.

The Belgian chocolate is distinguished by its old processing techniques and its high-quality standards. While the European Union allows manufacturers to replace up to 5% of their cocoa butter with different vegetable fats, Galler is proud to use 100% cocoa butter, which increases the smoothness and taste of the chocolate.

Thanks to its excellent quality and taste, Galler is famous and appreciated worldwide.

# RAWETTES

5G

Means “small, pretty, little extra” in Walloon dialect, the region that is home to Chocolaterie Galler since 1976. Filled mini bites to share, because good things are always better when you can share them, whenever or wherever you like!

## DARK CHOCOLATE

**PRALINÉ**

Inside this dark chocolate, the hazelnut praline holds the star role of sweetness. Definitely a performance of great taste!

**BISCUIT PRALINÉ**

A breeze from Brittany blew into the ear of the creators of this darkchocolate Rawete: a hazelnut praliné, a pinch of salt and crepes dentelle... Breton, of course.

**SALTED BUTTER CARAMEL**

Back to childhood! It is the message of this Rawete, dark chocolate wrapped around a melting heart of salted butter caramel!

**RASPBERRY**

Dark chocolate, light raspberry cream.

## MILK CHOCOLATE

**PRALINÉ**

Inside this milk chocolate, the hazelnut praline is the star of its sweetness. Definitely a performance of great taste!

**POPCORN FLAVOUR**

Wow! The taste of popcorn combined with milk chocolate. We had to dare a new flavour, and the chocolaterie did. It is like at the cinema, once you've tasted it you won't be able to resist it.

**ALMOND PRALINÉ**

By combining a crisp almond praline and a pinch of salt inside this dark chocolate bite, we want nothing else but to make you go nuts over it!

## WHITE CHOCOLATE

**PRALINÉ**

This white chocolate holds a heart of hazelnut, the main star of sweetness. Definitely a performance of great taste!

**PUFFED RICE**

This Rawete contains the crunchiest filling: a traditional hazelnut praline with a lighter texture!

**PRALINÉ COOKIES**

At the Chocolaterie, we're always after a new challenge. Here's one: the taste of a famous American biscuit in a white chocolate bite. A yummy combination that will charm the tastebuds of grownups... And children alike.

# MARKETING

Maximize visibility at your points of sale and increase your sales.

## VISIBILITY BOOST

Up to 76% of shopping decisions are made in the point of sales. To optimise visibility and clarify the offer for your customers are thus essential.

## DISCOVERY BOOST

1 customer of 2 is influenced by POS, signage, or animation in the point of sales. To get your customers to discover a new brand, tastings remain a powerful tool.

## SALES BOOST

Chocolate is an impulse category. To see it = to buy it. To increase your incremental sales, you should multiply the touchpoints to this category in your store and develop 2nd placement offers (outside of the shelf).

# HANDBAKED *Cookies*

We have reached a point where we have become remarkably used to consuming products produced entirely by machines that, in the past, were made by hand. From a loaf of bread to some pasta, from a bar of chocolate to a piece of pastry.

However, in recent years we have been making a considerable return to craftsmanship. It cheers us up to know that something is made by a person, with their own hands. And the best thing: we appreciate it.

Because we can feel it. That's exactly what happens with the cookies from the Belgian bakery Generous. They are handmade, organic and gluten-free. Generous is dedicated to the achievement of the traditional sweet flavor and the fusion of new tastes that can perfectly transform it into salty.

All the cookies are presented in colorful 100-gram bags in which the names of each recipe take shape with the illustration of a character that represents them. Generous are the cookies that one can never stop enjoying.

natura

**SAUCES,  
BOLDNESS &  
*Tradition***

The adventure of Natura began in 1939, when a Belgian fisherman, Philippe Vryghem, decided to produce his own mayonnaise for his fish dishes.

For almost thirty years, word of mouth allowed him to sell mayonnaise along with his fish. But in 1970, the success of mayonnaise was such that he eliminated fish from the store.

In 1990, Arlette Vryghem, the founder's granddaughter, launched a delicious, internationally recognized range of dressings based on natural products of the highest quality.

For almost 74 years, quality and traditions have been very important to Natura. Mayonnaise is always made with high quality ingredients and is 100% natural (no preservatives, additives or colorants). Today, Natura is a world reference in mayonnaise and dressings. It has a range of mayonnaises, mustards, ketchups, dressings & chutneys.
